Date of Notice	26 th October 2016		
Publication Date	26 th October 2016		
Effective Date	15 th September 2017		
Directly Affected Documents			
CI plus Specification v1.4.2, CI plus Specification v1.3.2			
Detailed Change Description			
From the sunrise date of the CI plus v1.4 specification, the Application MMI resource version 1 and version 2 with the CI Plus application domain of “CIEngineProfile1” will become optional and are removed from the table 4.1: Mandatory resources of the CI plus v1.4.2 specification.			
As a consequence, the following sections of the v1.3.2 specification will become optional:			
Document	Chapter	Title	
CI Plus Specification 1.3.2	4.6	Enhanced MMI	
CI Plus Specification 1.3.2	12	CI Plus Application Level MMI	
CI Plus Specification 1.3.2	14.4	Application MMI Resource	
CI Plus Specification 1.3.2	14.5	Application MMI resource V2	
Devices that implement the MHEG client for CI plus must still do so in compliance with the CI plus v1.4 specification.
