CI Plus Specification v1.4.2, CI Plus Specification v1.3.2																							
Detailed Change Description																							
From the sunrise date of the CI Plus v1.4 specification, the Application MMI resource type 1 version 1 and version 2 with the CI Plus application domain of "CIEngineProfile1" will become optional and are removed from the table 4.1: Mandatory resources of the CI Plus v1.4.2 specification.																							
As a consequence, the following sections of the v1.3.2 specification will become optional:																							
<table border="1"> <thead> <tr> <th>Document</th> <th>Chapter</th> <th colspan="2">Title</th> </tr> </thead> <tbody> <tr> <td>CI Plus Specification 1.3.2</td> <td>4.6</td> <td colspan="2">Enhanced MMI</td> </tr> <tr> <td>CI Plus Specification 1.3.2</td> <td>12</td> <td colspan="2">CI Plus Application Level MMI</td> </tr> <tr> <td>CI Plus Specification 1.3.2</td> <td>14.4</td> <td colspan="2">Application MMI Resource</td> </tr> <tr> <td>CI Plus Specification 1.3.2</td> <td>14.5</td> <td colspan="2">Application MMI resource V2</td> </tr> </tbody> </table>				Document	Chapter	Title		CI Plus Specification 1.3.2	4.6	Enhanced MMI		CI Plus Specification 1.3.2	12	CI Plus Application Level MMI		CI Plus Specification 1.3.2	14.4	Application MMI Resource		CI Plus Specification 1.3.2	14.5	Application MMI resource V2	
Document	Chapter	Title																					
CI Plus Specification 1.3.2	4.6	Enhanced MMI																					
CI Plus Specification 1.3.2	12	CI Plus Application Level MMI																					
CI Plus Specification 1.3.2	14.4	Application MMI Resource																					
CI Plus Specification 1.3.2	14.5	Application MMI resource V2																					
<p>Furthermore, the Application MMI resource type 2 version 1 with the CI Plus application domain of "CIEngineProfile1" will become optional for multi-stream capable devices, and is removed from table 5.1: Mandatory resources for Multi-stream of the CI Plus v1.4.2 specification.</p>																							
Devices that implement the MHEG client for CI Plus must still do so in compliance with the CI Plus v1.4 specification.
